

Privacy Policy

Effective Date: September 13, 2026

This Privacy Policy describes how **Anamorphic Maker** handles user information and data.

Information We Collect

Anamorphic Maker does not collect, store, transmit, or share personal information.

The app does not require users to create an account or provide personal information to use its features.

Photos and Images

Anamorphic Maker allows you to import images from your device for creating anamorphic artwork and drawing references.

Images selected by you are accessed only when necessary to provide the app's features. Image processing is performed locally on your device.

Anamorphic Maker does not upload, collect, store, or share your imported images with the developer or third parties.

When you choose to save or export an image, the resulting image is saved or shared only according to the action you select on your device.

Camera and Photo Library Access

If Anamorphic Maker requests access to your camera or photo library, this access is used solely to allow you to select, capture, save, or export images as part of the app's functionality.

The app does not use this access to collect your photos or other personal information.

Analytics and Tracking

Anamorphic Maker does not use user tracking, behavioral advertising, or third-party advertising services.

The app does not sell or share personal information for advertising purposes.

Third-Party Services

Anamorphic Maker does not intentionally send your imported images or personal information to third-party services.

Certain functions provided by your device or operating system, such as the system share sheet or App Store services, may be governed by the privacy policies of their respective providers.

Children's Privacy

Anamorphic Maker does not knowingly collect personal information from children or any other users.

Data Security

Because image processing is performed locally on your device and Anamorphic Maker does not collect or store your personal information on developer-operated servers, your images remain under your control on your device.

Changes to This Privacy Policy

This Privacy Policy may be updated from time to time to reflect changes to the app or applicable requirements. Any changes will be reflected by updating the effective date of this policy.

Contact

If you have any questions about this Privacy Policy or Anamorphic Maker's privacy practices, please contact:
